# Operating Costs Overview

## Staff costs (Actual)

## Non-Staff costs (Actual)

## Commentary

Staff costs (not including partner profit share) in H1 22 were marginally higher than H1 21, as we hired more people to support our growth.

Non-staff costs increased in H1 22 due to one-off costs associated with the IPO and our continued investment in technology.

Period-end headcount show double-digit percentage growth over the corresponding period in H1 21, reflecting the strategic investment in additional people to support business expansion, improved governance and to ensure that we maintain exceptional client service.

# Balance Sheet & Capital Position Overview

## Cash Position and Net Asset Value

## Commentary

- ➔ Net assets remained strong at £50.0m as at 28 September 2021, which is consistent with H1 21.
- ➔ Pillar 1 coverage over net assets decreased in H1 22 vs H1 21 due to an increase in the market risk requirement on securities held for trading and the operational risk requirement following the final audited result for 31 March 2021.
- ➔ H1 22 we continued to operate with coverage in excess of our regulatory capital requirements. Our coverage will increase due to the net proceeds raised in the IPO.
